

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
American Nurses Foundation	Health	Reimagining Nursing Initiative	10/25/2021	\$500,000	\$1,500,000	Up to 3-year grant period	The Reimagining Nursing (RN) Initiative aims to elevate the nursing profession's capability to match future health demands by investing in opportunities for transformative change that lie at the intersection of education, regulation, and practice. To that end, the foundation is seeking grantees to pilot and evaluate bold new ideas and undertake this work in ways that enable others to replicate the pilot's success and accelerate widespread transformation in nursing.	Online Application	https://www.nursingworld.org/~4a2f43/globalassets/foundation/reimagining-nursing/anf_rni_rfp_final.pdf
BrightFocus Foundation	Health	Glaucoma Research Grant	10/26/2021	\$75,000	\$200,000	Up to 2-year grant period	BrightFocus provides research funds for U.S. and international researchers pursuing pioneering research leading to greater understanding, prevention, and treatment of glaucoma. Preference is made for exciting pilot projects that would not, at their present stage, be competitive for large government or industry awards. Please note that applicants to the NGR program are encouraged to apply for funding to create tools that would benefit all investigators in the field, including animal models of disease, or cell lines.	Online Application	https://www.brightfocus.org/grants/request-proposal-national-glaucoma-research-program
Retina Research Foundation	Health	Pilot Study Grants	10/26/2021	\$25,000	\$150,000	Grant can be renewed for up to 3 years depending on progress	The aim of the RRF pilot study grants is to allow investigators to perform retina research that will provide preliminary data that will allow successful submission for NIH or other major funding.	Mailed Application	http://retinaresearchfnd.org/pilot-study-grants/grant-info/
Facebook Research	Computer Science	Mathematical modeling and optimization for large-scale distributed systems	10/27/2021		\$50,000	1-year grant period	Proposals should advance mathematical techniques with a clear, practical application to one area of interest in backend systems. Areas of interest for this RFP are data center and hardware operations, cloud computing and cluster management, and application tuning and optimization. Must coordinate with Corporate Relations.	Online Application	https://research.fb.com/programs/research-awards/proposals/mathematical-modeling-and-optimization-for-large-scale-distributed-systems-request-for-proposals/
American Association of Critical-Care Nurses	Health	Impact Research Grants	10/29/2021		\$50,000	2-year maximum grant period	This opportunity supports inquiry and systematic research that generates new knowledge. These grants also will facilitate research to support other AACN priorities, such as describing the impact of family presence, influencing nurse certification, and implementing standards for healthy work environments.	Emailed Application	https://www.aacn.org/nursing-excellence/grants/aacn-impact-research-grant

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Fahs-Beck Fund	Health	Faculty/Post-Doctoral Grant Program	11/1/2021		\$25,000	2-year maximum grant period	Areas of interest for funding are: studies to develop, refine, evaluate, or disseminate interventions and preventive/intervention to address social, psychological, behavioral or public health problems affecting children, adults, couples, families, and communities with outcomes that have the potential add to the knowledge base for services and program development. Community engaged research is highly valued.	Online Application	http://www.fahsbeckfund.org/wp-content/uploads/2021/02/Faculty-Post-Doc-Guidelines-1-26-2021.pdf
Mitsubishi Electric America Foundation	Various	Youth, Veteran Employment Programs	11/1/2021	\$10,000	\$300,000	Up to 3-year grant period	Grants will be awarded in support of projects that present an innovative approach that leads to measurable employment outcomes for youth (ages 0-26) with disabilities; are national in scope, or model projects that have a definite plan for national dissemination and replication; support U.S. youth with disabilities as the main beneficiary, or young veterans with disabilities transitioning to civilian life; promote the full-inclusion of youth with disabilities alongside their peers without disabilities, and promote inclusive, competitive employment practices; and have a well-defined evaluation, dissemination, and replication plan. Must coordinate with Corporate Relations.	Online Application	https://us.mitsubishielectric.com/en/about/local/csr/meaf/grant/guidelines/index.html
American Council of Learned Societies	Various	Henry Luce Foundation/ACLS Program in China Studies	11/1/2021	\$20,000	\$85,000		In cooperation with the Henry Luce Foundation, ACLS has embarked on a three-year bridging initiative to reassess and reconfigure the Luce/ACLS Program in China Studies. We will convene scholars at all ranks, higher education leaders, journalists, and other readers of research and writing on China to re-imagine and transform our program to meet the needs of China studies in the 21st century.	Online Application	https://acls.org/programs/china-studies/
Wenner-Grenn Foundation	Anthropology	Post-Ph.D. Research Grants	11/1/2021		\$20,000		The program contributes to the Foundation's overall mission to support basic research in anthropology and to ensure that the discipline continues to be a source of vibrant and significant work that furthers our understanding of humanity's cultural and biological origins, development, and variation. The Foundation supports research that demonstrates a clear link to anthropological theory and debates, and promises to make a solid contribution to advancing these ideas. There is no preference for any methodology, research location, or subfield. The Foundation particularly welcomes proposals that employ a comparative perspective, can generate innovative approaches or ideas, and/or integrate two or more subfields.	Online Application	http://www.wennergren.org/programs/post-phd-research-grants
Lalor Foundation	Health	Anna Lalor Burdick Program	11/1/2021	\$10,000	\$35,000	Concept paper only; full-proposal upon invitation; 1-year grant period	This RFP supports programs that offer sexual and reproductive health education to young women. The Foundation is interested in programs serving young women who are disadvantaged by poverty, discrimination, geographic isolation, lack of comprehensive sex education, hostile public policy, or other factors leading to inadequate sexual and reproductive health. The ALB Program is particularly interested in supporting new programs or initiatives, or innovations in successful programs.	Online Application	http://lalorfound.org/anna-lalor-burdick-program/application-guidelines/

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Grammy Foundation	Various	Music Research Grants	11/1/2021		\$20,000	LOI only; full proposal is invite only; up to 2-year grant period	Supports research on the impact of music on the human condition. Examples include the study of the effects of music on mood, cognition and healing, as well as the medical and occupational well-being of music professionals, and the creative process underlying music. Priority is given to projects with strong methodological design and innovative research questions.	Online Application	https://s3.amazonaws.com/assets.grammys.realt.com/wp-content/uploads/2021/07/21141957/2022-LOI-Research-Guidelines.pdf
BrightFocus Foundation	Health	Alzheimer's Disease Research Grant	11/1/2021	\$100,000	\$300,000	Up to 3-year grant period	The goal of the program is to accelerate our understanding of the biological mechanisms underlying Alzheimer's Disease and related dementias as well as innovative approaches to better diagnose, prevent or delay the progress of the disease. Preference is made for exciting pilot projects that would not, at their present stage, be competitive for large government or industry awards. Typically, these awards are made to early stage investigators, or to more established investigators who are proposing particularly innovative research.	Online Application	https://www.brightfocus.org/grants/request-proposal-alzheimers-disease-research-program
ENTELLIGENCE	Health	Young Investigator Program	11/1/2021		\$100,000	LOI only with full application due 2/1/2022	ENTELLIGENCE is a program designed for basic science, translational and clinical research in the field of cardiopulmonary medicine. The ENTELLIGENCE program provides opportunities for individual young investigators to promote quality medical care and enhance patients' lives by supporting research (basic science, translational and clinical research) in the area of pulmonary hypertension (PH) related to expanding our knowledge of the pathways involved in pulmonary vascular pathobiology and ultimately, to improve treatment for patients with pulmonary hypertension.	Online Application	https://www.entelligence.md.org/program_overview
Russell Sage Foundation	Social Science	Pipeline Grants	11/4/2021	\$30,000	\$50,000	LOI only with full application due in March 2022	The Russell Sage Foundation (RSF), in partnership with the Economic Mobility and Opportunity program at the Bill & Melinda Gates Foundation (BMGF), seeks to advance innovative research on economic mobility and access to opportunity in the United States. We are interested in research focused on structural barriers to economic mobility and how individuals, communities and state entities understand, navigate and challenge systemic inequalities. This initiative will support early-career tenure-track scholars and promote diversity by prioritizing applications from scholars who are underrepresented in the social sciences. This includes racial, ethnic, gender, disciplinary, institutional, and geographic diversity. Must coordinate with Foundation Relations.	Online Application	https://www.russellsage.org/research/pipeline-grants-competition
Russell Sage Foundation	Social Science	Future of Work	11/10/2021	\$35,000	\$175,000	LOI only with full application due 3/9/2022	Future of Work supports innovative research on the causes and consequences of changes in the quality of jobs for less- and moderately skilled workers and their families. We seek investigator-initiated research proposals that will broaden our understanding of the role of changes in employer practices, the nature of the labor market and public policies on employment, earnings, and job quality. We are especially interested in proposals that address questions about the interplay of market and non-market forces in shaping the wellbeing of workers, today and in the future. Must coordinate with Foundation Relations.	Online Application	https://www.russellsage.org/research/future-work

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Russell Sage Foundation	Social Science	Social, Political, and Economic Inequality	11/10/2021	\$35,000	\$175,000	LOI only with full application due 3/9/2022	The Social, Political and Economic Inequality program focuses on the causes and consequences of social, political, and economic inequalities in the U.S. The program examines the factors that contribute to existing inequities, the extent to which these inequalities affect social, political, and economic institutions and outcomes, and how they influence the lives of individuals and families, including equality of access and opportunity, social mobility, civic mobilization and representation, as well as how advantage and disadvantage are transmitted within and across generations. Must coordinate with Foundation Relations.	Online Application	https://www.russellsage.org/research/social-political-and-economic-inequality
Russell Sage Foundation	Social Science	Behavioral Science and Decision Making in Context	11/10/2021	\$35,000	\$175,000	LOI only with full application due 3/9/2022	This program encourages perspectives from multiple disciplines, including economics, psychology, political science, sociology, law, public policy, and other social sciences, to further our understanding of economic, social, political, and psychological decision-making processes, attitudes, behaviors, and institutional practices in public and private contexts such as policing/criminal legal systems, employment, housing, politics, racial/ethnic relations, and immigration. Must coordinate with Foundation Relations.	Online Application	https://www.russellsage.org/research/behavioral-science-and-decision-making-context
Spencer Foundation	Education	Research-Practice Partnership (RPP) Grants Program	11/10/2021		\$400,000	Intent to Apply only, with full submission 12/8/2021; up to 3-year grant period	The Research-Practice Partnership (RPP) Grants Program is intended to support education research projects that engage in collaborative and participatory partnerships. partners can be among school districts, county offices of education, state educational organizations, universities, community-based organizations, out-of-school-time providers, informal educators, and other social sectors that significantly impact learners' lives. As such, the Foundation is open to applications from design-based research teams, networked improvement communities, placed-based research alliances, and other partnership arrangements. Must coordinate with Foundation Relations.	Online Application	https://www.spencer.org/grant_types/research-practice-partnerships
Alkermes	Mental Health	Pathways Research Awards	11/12/2021		\$100,000	Up to 2-year grant period	The Alkermes Pathways Research Awards program provides opportunities for individual grants for early-career investigators focused on research relating to schizophrenia, bipolar disorder, alcohol use disorder (AUD) or opioid use disorder (OUD) from a neurological perspective.	Online Application	https://www.alkermes.com/research-and-development/pathways
WES Mariam Assefa Fund	Various	U.S. Funding Opportunity: Employer Practices	11/15/2021		\$150,000	LOI only with full proposal due in mid-May 2022; Up to 2-year grant period	The WES Mariam Assefa Fund seeks proposals to identify new ideas that can drive more inclusive employer practices in the U.S. And improve economic mobility for immigrants and refugees. The Fund is looking for ideas from organizations to directly engage employers to shift internal talent practices to reduce bias in recruitment and hiring, build more inclusive workplaces, and invest in the advancement of incumbent immigrant and refugee talent; pilot demand-driven training and education programs that connect immigrant and refugee job seekers to quality jobs, particularly in high-growth sectors; build coalitions within or across sectors to advance commitments and facilitate knowledge sharing and collective action among employers; and assess the impact of existing employer initiatives focused on immigrant and refugee workers to identify the path forward for those solutions.	Online Application	https://www.wes.org/wp-content/uploads/2021/09/FAQs-U.S.-Employer-Practices-App-Portal-2021-9.20.21.pdf

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
American Foundation for Suicide Prevention	Mental Health	Innovation Grants	11/15/2021	\$30,000	\$132,900	Up to 2-year grant period	Supports suicide prevention research related to underrepresented communities as well as researchers from underrepresented backgrounds. Innovation grants also support the evaluation of technological tools for suicide prevention, and research related to survivors of suicide loss, understanding the impact of suicide loss and it's after-effects, and the process of healing.	Online Application	https://afsp.org/research-grant-information#research-grant-types
Cancer Research Institute	Health	Technology Impact Award	11/15/2021	\$100,000	\$200,000	LOI only with full proposal due 3/15/2022; Up to 2-year grant period	These grants aim to encourage collaboration between technology developers and clinical cancer immunologists and to generate the proof-of-principle of a novel platform technology in bioinformatics, ex vivo or in silico modeling systems, immunological or tumor profiling instrumentation, methods, reagents and assays, or other relevant technologies that can enable clinician scientists to generate deeper insights into the mechanisms of action of effective or ineffective cancer immunotherapies.		
Gerber Foundation	Health	Research Award	11/15/2021	\$20,000	\$350,000	Concept paper only with full-proposal due 2/15/2022	The Foundation is particularly interested in fresh approaches to solving common, everyday problems or emerging issues within our defined focus area. Projects should focus on issues faced by care providers that, when implemented, will improve the health, nutrition and/or developmental outcomes for infants and young children. The board is particularly looking for practical solutions that can be easily and rapidly implemented on a broad scale with a predictable time frame to clinical application.	Online Application	https://www.gerberfoundation.org/how-to-apply/
National Endowment for Financial Education (NEFE)	Finance	Research Grants	11/15/2021	\$25,000	\$100,000	LOI only; full proposal invite only	Supports studies that re-evaluate current financial literacy metrics and how financial literacy, behavior, perception, knowledge and skill can be measured more effectively; studies that investigate knowledge, skill and wealth disparities, especially among populations that are statistically more likely to experience systemic barriers to improving their financial well-being; studies that examine bias—specifically as it pertains to personal finance— to help our field identify knowledge gaps and to strengthen research data and design by including traditionally less heard voices; and studies that examine inconsistencies in exposure to financial education among youth in the U.S. as well as variations in financial socialization and education within family units.	Online Application	https://www.nefe.org/research/get-funding/grant-process-overview.aspx
Retirement Research Foundation	Various	Research Grants	11/15/2021	\$10,000	\$100,000	LOI only with full proposal due 2/1/2022	RRF funds research that seeks to identify interventions, policies and practices to improve the well-being of older adults and/or their caregivers. Preference is given to projects aimed at generating practical knowledge and guidance that can be used by advocates, policy-makers, providers, and the aging network.	Online Application	https://www.rrf.org/apply-for-a-grant/research-grants/

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
American Association for Cancer Research	Health	Development Award to Further Diversity, Equity, and Inclusion in Cancer Research	11/30/2021		\$300,000	3-year grant period	The AACR Career Development Award to Further Diversity, Equity, and Inclusion in Cancer Research has been established to support the development of highly talented cancer researchers from under-represented groups (as per NIH guidelines). Eligibility is limited to members of racial or ethnic groups that have been shown to be underrepresented in the cancer related sciences.	Online Application	https://www.aacr.org/grants/aacr-career-development-award-to-further-diversity-equity-and-inclusion-in-cancer-research/
Cancer Research Institute	Health	Clinical and Laboratory Integration Program	12/1/2021	\$100,000	\$200,000	LOI only, with full proposal due 3/1/2022; up to 2-year grant	CLIP Grants provide funding for qualified scientists who are working to explore clinically relevant questions aimed at improving the effectiveness of cancer immunotherapies. The grant will support pre-clinical and translational research, which will provide information that can be directly applied to optimizing cancer immunotherapy in the clinic.	Online Application	https://www.cancerresearch.org/scientists/fellowships-grants/translational-research-grants/clip-application-guidelines
Burroughs Wellcome Fund	Health	Next Gen Pregnancy Initiative	12/1/2021	\$125,000	\$500,000	Up to 5-year grant period	Building upon the original goals of the BWF Preterm Birth Initiative, a recently convened Pregnancy Think Tank has helped shape the next generation of BWF preterm birth awards. Growing evidence suggests the interrelatedness of the duration of pregnancy, fetal growth, and adverse pregnancy outcomes such as preterm birth, preeclampsia, intrauterine growth restriction, stillbirth, and maternal medical complications including maternal mortality. Other areas of interest are climate change and environmental impact on pregnancy, complications associated with ART, and epigenome-wide association studies.	Online Application	https://www.bwffund.org/funding-opportunities/reproductive-sciences/next-gen-pregnancy-initiative/
Spencer Foundation	Education	Small Research Grants	12/1/2021		\$50,000	Up to 5-year grant period	The Small Research Grants Program supports education research projects that will contribute to the improvement of education, broadly conceived. This program is "field-initiated" in that proposal submissions are not in response to a specific request for a particular research topic, discipline, design, method, or location. Must coordinate with Foundation Relations.	Online Application	https://www.spencer.org/grant_types/small-research-grant
McKnight Foundation	Health	Technological Innovations in Neuroscience Awards	12/6/2021	\$100,000	\$200,000	LOI only with full application due 4/25/2022; up to 2-year grant period	The Foundation is especially interested in how technology may be used or adapted to monitor, manipulate, analyze, or model brain function at any level, from the molecular to the entire organism. Technology may take any form, from biochemical tools to instruments to software and mathematical approaches. Because the program seeks to advance and enlarge the range of technologies available to the neurosciences, research based primarily on existing techniques will not be considered.	Online Application	https://www.mcknight.org/programs/the-mcknight-endowment-fund-for-neuroscience/technology-awards/

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Community Foundation for Southeastern Michigan	Various	Ralph C. Wilson, Jr. Legacy Funds	12/10/2021	\$10,000	\$50,000	One-year grants. Full applications due 12/10.	The Ralph C. Wilson, Jr. Funds support projects within southeast Michigan that assist caregivers of persons who are unable to fully care for themselves and are part of an underserved community, with a preference for requests to provide support to caregivers of older adults; projects in southeast Michigan that serve to increase the walkability and bikeability of local communities and/or increasing outdoor recreational activities within the region; and projects in southeast Michigan that bring high-quality sports programs to youth. Must coordinate with Foundation Relations.	Online Application	https://cfsem.org/special-opportunities/ralph-c-wilson-jr-legacy-funds/
Michigan Health Endowment Fund	Health	Community Impact Grants	12/15/2021*		\$100,000	*Due date subject to change Concepts and submissions will be centrally-coordinated by Foundation Relations. Concept submission highly recommended.	The Community Health Impact program supports health-focused, community-based organizations with bold ideas to address health challenges in any of the Health Fund's focus areas: Access to Healthy Foods, Behavioral Health Services, Food-borne Illness Prevention, and Health Related Transportation Services. Must coordinate with Foundation Relations.	Online Application	https://mihealthfund.org/grantmaking/community-health-impact
Elsa U. Pardee Foundation	Health	Cancer Research Grants	12/30/2021	\$50,000	\$200,000		The Elsa U. Pardee Foundation funds research to investigators in United States non-profit institutions proposing research directed toward identifying new treatments or cures for cancer. The Foundation funds projects for a one year period which will allow establishment of capabilities of new cancer researchers, or new cancer approaches by established cancer researchers. It is anticipated that this early stage funding by the Foundation may lead to subsequent and expanded support using government agency funding.	Online Application	https://pardeefoundation.org/how-to-apply/
Burroughs Wellcome Fund	Health	Climate Change and Human Health Seed Grants	Rolling	\$2,500	\$50,000	Taking rolling applications until August 2023	The foundation is interested in activities that build connections between basic/early biomedical scientific approaches and ecological, environmental, geological, geographic, and planetary-scale thinking, as well as with population-focused fields including epidemiology and public health, demography, economics, and urban planning. Also of interest is work piloting new approaches or new interactions toward reducing the impact of health-centered activities, for example, developing more sustainable systems for health care, care delivery, and biomedical research systems. Another area of interest is preparation for the impacts of extreme weather and other crises that can drive large scale disruptions that will immediately impact human health and delivery of health care. Public outreach, climate communication, and education efforts focused on the intersection of climate and health are also appropriate for this call.	Online Application	https://www.bwfund.org/wp-content/uploads/2021/09/BWF_CCHH_RFP_v4.pdf
Searle Freedom Trust	Social Science	Domestic Public Policy research Grants	Rolling	\$50,000	\$300,000	The foundation's board meets 12/2, 4/15, and 8/19	Recognizing that good policymaking relies on the availability of high-quality research, the foundation invests primarily in scholarship that results in the publication of books, journal articles, and policy papers. The Trust is primarily interested in supporting domestic public policy research.	Online Application	https://searlefreedomtrust.org/application-guidelines/

Upcoming Opportunities - October 2021

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (vanessa.miller@wayne.edu) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Simons Foundation	Science	Targeted Grants in Mathematics and Physical Sciences	Rolling	\$25,000	\$300,000	LOI only, with full applications invited upon review; up to 5-year grant period	The foundation invites applications for its Targeted Grants in Mathematics and Physical Sciences program, which is intended to support high-risk theoretical mathematics, physics, and computer science projects of exceptional promise and scientific importance on a case-by-case basis. It provides flexible funding for up to five years. The foundation strongly encourages applications from scientists from underrepresented groups. Must coordinate with Foundation Relations.	Online Application	https://www.simonsfoundation.org/grant/targeted-grants-in-mps/?tab=awardees
Transformational Partnership Fund	Higher Ed	Higher Ed Partnership and Collaboration Grants	Rolling		\$100,000		Catalytic grants (up to \$100,000 per exploration) will be available to help schools engage technical assistance providers knowledgeable in law, finance, governance, fundraising, human resources, and/or other related fields. TPF also will provide free access to relevant resources collected from its advisors, its network, and other third-parties.	Online Application	https://www.higheredpartnerships.org/challenge-opportunity/
Internet Society Foundation	Various	Future and Sustainability of the Internet	Rolling		\$200,000	2-year grant period	Supports research on the internet's environmental footprint or past or present ecosystems which yield insights into the future of the Internet and its dependent market(s).	Online Application	https://www.isocfoundation.org/grant-programme/research-grant-programme/
Robert Wood Johnson Foundation	Health	Exploring the Future to Build a Culture of Health	Rolling		\$300,000	The average Pioneer grant in 2019 was \$315,031. Proposals will be accepted throughout the year on a rolling admission.	Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. Must coordinate with Foundation Relations.	Online Application	https://www.rwjf.org/en/library/funding-opportunities/2020/pioneering-ideas-2020-exploring-the-future-to-build-a-culture-of-health.html?rid=003250000271F4VOAW&et_cid=2046258
Robert Wood Johnson Foundation	Health	Evidence for Action: Investigator-Initiated Research to Build a Culture of Health	Rolling	\$185,000	\$440,000	Grant period is up to 36 months.	Supports rigorous, high-impact, creative research projects to build and disseminate information for evidence-based approaches to building a Culture of Health. The program will also support efforts to assess outcomes and set priorities for action by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and well-being, and on novel approaches to measuring health determinants and outcomes. Must coordinate with Foundation Relations.	Online Application	https://anr.rwjf.org/viewCfp.do?cfpld=1224&cfpOverviewId=
Thrasher Research Foundation	Health	E.W. Al Thrasher Award	Rolling	\$100,000	\$500,000	Awards grants two times per year, with no fixed number of awards given in each funding cycle or in each year.	Funds to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years. Open to applications that address a variety of significant pediatric problems. Both incidence and severity are considered when determining the significance of the proposed topic.	Email LOI	https://www.thrasherresearch.org/SitePages/al-thrasher-award.aspx
Michael J. Fox Foundation for Parkinson's Research	Health	Rapid Response Innovation Awards	Rolling		\$75,000		Supports innovative, high-risk, high-reward projects tackling critical scientific and therapeutic roadblocks that, if successful, open new avenues for PD therapy development. The program is well suited to projects with little-to-no existing preliminary data, but where hypothetical rationale is highly compelling and study results can make the case for continuing (or discontinuing) a line of research. Applicants may submit on any PD-relevant area of basic, preclinical and/or clinical research with a clear, achievable one-year goal.	Online Application	https://www.michaeljfox.org/research/grant-detail.php?id=3

Upcoming Opportunities - October 2021

Funder	Topic	Program Name	Deadline	Award Minimum	Award Maximum	Notes	Purpose	Submission Method	Website
Wish You Well Foundation	Education	Grant Program	Rolling	\$200	\$10,000		Supporting family literacy in the United States by fostering and promoting the development and expansion of new and existing literacy and educational programs.	Online or Mail Application	http://www.wishyouwellfoundation.org/apply-for-funding/
The Nathan Cummings Foundation	Science	Climate Program	Rolling	\$3,000	\$950,000		Supports promising work that addresses climate change by increasing access to modern energy for the world's poor; stabilizing greenhouse gas concentrations in the atmosphere at a low level; and improving resilience for those most vulnerable to the negative consequences of climate variability and change.	Online Application	http://ncf.org/what-we-fund/our-focus/climate
The Commonwealth Fund	Health	Grant Program	Rolling		\$200,000	Strictly LOI submission. Proposals are invitation only. Award amount based on previous grants.	To promote a high performing healthcare system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, minority Americans, young children, and elderly adults. Must coordinate with Foundation Relations.	Online Application	http://www.commonwealthfund.org/grants-and-fellowships/applicant-resources
Andrew W. Mellon Foundation	Arts	Monuments Project	Rolling for five years				The Monuments Project is a five-year, \$250 million commitment to reimagine and rebuild commemorative spaces and transform the way history is told in the United States. The project is one of Mellon's signature initiatives under its President, Elizabeth Alexander. Grants made under the Monuments Project will fall under the following areas of activity: fund new monuments, memorials, or historic storytelling spaces; contextualize existing monuments or memorials through installations, research, and education; and relocate existing monuments or memorials. This is a five-year program, but Foundation Relations encourages early submissions. Additionally, this is a centrally-coordinated foundation and interested parties need to work with Foundation Relations on submissions. Must coordinate with Foundation Relations.	Online application	https://mellon.org/topics/monuments/
