

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications. Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|----------------------------------|---------|------------------------------------|-----------|---------------|---------------|---|---|--------------------|---|
| Simons Foundation | Health | SFARI Bridge to Independence Award | 2/28/2022 | | \$495,000 | 3-year grant period to begin at the assumption of a tenure-track position | SFARI is invested in supporting the next generation of top autism researchers. The Bridge to Independence Award program engages talented early-career scientists in autism research by facilitating their transition to research independence and providing grant funding at the start of their professorships at a U.S. or Canadian research institution. Must coordinate with Foundation Relations. | Online Application | https://www.sfari.org/grant/bridge-to-independence-award-request-for-applications/ |
| NASDAQ Foundation | Various | Quarterly Grant Program | 2/28/2022 | \$10,000 | \$100,000 | | Supports programs that enhance financial literacy among women and underrepresented communities or improve access to knowledge and tools among women and underrepresented communities; and those that support diverse entrepreneurs with the resources to strengthen and scale their businesses and contribute to the prosperity of society, including organizations and programs that equip women and diverse founders with mentoring and resources, and improve access to capital for women and diverse founders. | Online Application | https://www.nasdaq.com/nasdaq-foundation/grant-program |
| National Academy of Medicine | Health | 2022 US NAM Catalyst Award | 2/28/2022 | | \$50,000 | | The National Academy of Medicine plans to invite bold, new, and innovative ideas that aim to extend the human health span (i.e., the number of years lived in good health), especially approaches that challenge existing paradigms or propose new methodologies or concepts. High-risk ideas that could potentially yield high rewards and, in turn, dramatically change the field of healthy longevity are encouraged. | Online Application | https://nam.edu/initiatives/grand-challenge-healthy-longevity/u-s-nam-catalyst-award-competition-round-2-2021/ |
| Ewing Marion Kauffman Foundation | Various | Knowledge Challenge Grants | 2/28/2022 | \$200,000 | \$400,000 | First round only; stage 2 proposals due 5/2/2022; 36-month grant period | This opportunity supports systems and structures to support inclusive prosperity by funding studies on the infrastructure needed to support entrepreneurs and entrepreneurship. Kauffman especially welcomes submissions exploring wealth and income inequality, emerging trends in financing, and broader protections and social supports needed among entrepreneurs and aspiring entrepreneurs. The Foundation also supports studies that explore how entrepreneurial activity might be structured as the economy emerges from the COVID-19 pandemic. Must coordinate with Foundation Relations. | Online Application | https://rfp.kauffman.org/program/2022_knowledge_challenge/ |
| Ally Financial | Various | Community Grants | 2/28/2022 | \$10,000 | \$50,000 | | Ally supports organizations that provide financial education in order to promote financial literacy among vulnerable populations. Ally also support programs that provide job training, professional development, and workforce preparedness resources to assist underserved youth and adults with finding new job opportunities. | Online Application | https://www.ally.com/resources/pdf/about/community-relations/grants/corporateGrantMaking_GUIDELINES.pdf |

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications. Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|--|-------------|---|-----------|---------------|---------------|--|---|---------------------|---|
| Engineering Information Foundation | Engineering | Enhancing Communication and Use of Information in Engineering | 2/28/2022 | | \$25,000 | | The Foundation seeks to assist in improving communication skills of engineers by identifying successful approaches for including communication behavior into engineering curricula. Funded projects might focus on identifying innovative educational models, implementing them in curriculum, and testing approaches or models already in place. Collaborative projects between schools of engineering, communications, and/or information science are especially welcome. | Mailed Application | http://www.eifgrants.org/info/apply.html |
| Engineering Information Foundation | Engineering | Women in Engineering - Projects Directed by Engineering Educators | 2/28/2022 | | \$25,000 | | Supports programs that encourage middle-school girls to enter the engineering field, or programs designed to improve the retention rate of undergraduate women in engineering. The Foundation is particularly interested in new programs or modules, which, if they are found to be effective, will be continued within the applying institution(s). | Mailed Application | http://www.eifgrants.org/info/apply.html |
| Advanced Education Research and Development Fund (AERDF) | Education | Leveraging Education Advanced Research Now (LEARN) | 3/1/2022 | \$100,000 | \$300,000 | 1-year grant period; LOI only; full proposal is invite only | The Advanced Education Research and Development Fund (AERDF) is a research and development program focused on improving the conditions for the social and emotional wellbeing and positive academic outcomes of Black and Latinx learners. AFG will concentrate its efforts on solutions that lead to the precise identification of the social and emotional needs of Black and Latinx students or their educators in order to generate actionable knowledge for use in data-based decision-making. This includes solutions that incorporate improved assessment formats (i.e., ecological momentary assessment, embedded assessment, and/or rapid assessment) and assessment that links directly to intervention (i.e., dynamic assessment). Must Coordinate with Foundation Relations. | Online Application | https://www.aerdf.org/rfp-leveraging-education-advanced-research-now-learn/ |
| Donaghue Foundation | Health | Research to Improve Health of Older Adults in Long-Term Care Facilities | 3/1/2022 | | \$150,000 | LOI only; full application due 6/7/22; up to 2-year grant period | This program provides funding for health-related research that has the near term potential to improve health, well-being, and the quality and equity of care in long term care facilities, for adults who are 65 years or older and are long term residents in nursing homes, assisted living, and other congregate care facilities. | Emailed Application | https://donaghue.org/another-look/ |
| Dr. Scholl Foundation | Various | Yearly Grants | 3/1/2022 | \$10,000 | \$100,000 | | The Foundation supports a broad range of activities, but typically focuses on programs centered on education, social services, healthcare, civic and cultural life, and the environment. | Online Application | https://www.drschollfoundation.com/application-procedures/preferences-limitations/ |

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications. Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|---|---------------|--|-----------|---------------|---------------|---|--|--------------------|---|
| CURE Childhood Cancer | Health | Research Grant Program | 3/8/2022 | \$150,000 | \$300,000 | 1-2 year grant period | CURE Childhood Cancer is accepting research proposals aimed at finding cures and effective treatments with lower toxicity for childhood cancers. Highest priority will go to projects which are aimed at improving outcomes for the 20% of children who are not surviving today's methods of treatments. This opportunity seeks proposals for research with the potential to significantly improve treatments for pediatric cancers where current options are inadequate. Such studies might include development of novel therapies, characterization of drug resistance, and/or treatment of relapsed disease. | Online Application | https://curechildhoodcancer.org/wp-content/uploads/2022/01/2022-Grant-Guidelines.pdf |
| American Chemical Society | Science | New Directions Grant | 2/11/2022 | | \$110,000 | 2-year grant period | The New Directions (ND) grants program provides funds to scientists and engineers with limited—or even no—preliminary results for a research project they wish to pursue, who intend to use the PRF-driven preliminary results to seek continuation funding from other agencies. ND grants are to be used to illustrate proof of concept/feasibility. Accordingly, they are to be viewed as seed money for new research ventures. | Online Application | https://www.acs.org/content/acs/en/funding/grants/petroleum-research-fund.html |
| American Psychological Foundation | Mental Health | John and Polly Sparks Early Career Grant for Psychologists Investigating Serious Emotional Disturbance (SED) | 3/15/2022 | | \$22,000 | | The John and Polly Sparks Early Career Grant supports early career psychologists conducting research in the area of early intervention and treatment for serious emotional disturbance in children. | Online Application | https://www.apa.org/apf/funding/sparks-early-career?tab=1 |
| Damon Runyon Cancer Research Foundation | Health | Fellowship Award | 3/15/2022 | | \$54,000 | The foundation will also retire up to \$100,000 of a PI's qualified medical school debt and a dependent child allowance of \$1,000/child per year | Damon Runyon Fellowship Award supports theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies, and prevention. Awards will be made to institutions in support of a fellow under the direct supervision of a sponsor or scientist (tenured, tenure-track, or equivalent) who can provide mentoring to the fellow. In addition to aiding in the planning, execution, and supervision of the proposed research, the sponsor's role is to foster the development of the fellow's overall knowledge, technical and analytical skills, and capacity for scientific inquiry. Fellowships are granted a four-year term, with second-, third-, and fourth-year funding contingent on satisfactory progress reports. In addition, fellows in their first and third years of funding will attend Damon Runyon Fellows' Retreats, which are designed to foster collaboration and interaction between scientists working in different fields relevant to cancer. | Online Application | https://www.damonrunyon.org/for-scientists/application-guidelines/fellowship |
| Helmsley Charitable Trust | Health | Helmsley Type-1 Diabetes Program | 3/17/2022 | \$300,000 | \$1,200,000 | Concept notes only; full proposals due 6/1/2022; up to 3 year grant period | The Helmsley T1D Program aims to support studies that seek to understand and/or therapeutically emulate natural protection from T1D. Of specific interest are research plans that include understanding genetic protection from T1D (e.g., HLA-DQB1*06:02); understanding maternal protection from T1D (any factor from mothers with T1D that protect their offspring from developing the disease); understanding other examples of natural protection from T1D that are amenable to scientific study; and developing or validating preclinical or clinical therapies to prevent or delay T1D that mimic aspects of natural protection. | Online Application | https://helmsleytrust.org/request_for_proposal/understanding-and-therapeutically-emulating-examples-where-individuals-are-naturally-protected-from-developing-t1d/ |

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications. Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|----------------------------------|-----------|--|-----------|---------------|---------------|---|---|---------------------|---|
| Simons Foundation | Health | Simons Foundation Autism Research Initiative (SFARI) | 3/17/2022 | | \$300,000 | Up to 2-year grant period | The SFARI Pilot Awards program will provide early support for exploratory ideas, particularly those with novel hypotheses. Appropriate projects for this mechanism include those considered higher risk but with the potential for transformative results. Projects that represent continuations of ongoing work, whether funded by SFARI or other funders, are not appropriate for this mechanism. SFARI encourages applications that propose research to link genetic or other ASD risk factors to the molecular, cellular, circuit, or behavioral mechanisms and set the stage for developing novel interventions. | Online Application | https://www.sfari.org/grant/pilot-awards-request-for-applications/?tab=how-to-apply |
| Alfred P. Sloan Foundation | Research | Collaborative Research Projects on Energy System Electrification | 3/22/2022 | | \$500,000 | 2-3-year grants. Letters of inquiry due 3/22. Researchers may participate in a maximum of two proposed projects. | The Energy and Environment program is soliciting Letters of Inquiry for collaborative research projects led by early- and mid-career scholars to examine critical and under-explored questions related to issues of widespread energy system electrification, especially those related to energy infrastructure resiliency and energy system adaptation to climate change in the United States. A small number of full proposals will be invited from submissions received in response to this Call. Grant amounts are expected to be up to \$500,000 over a 2-3 year period. LOI due 3/22/2022. Must coordinate with Foundation Relations. | Email LOI | https://sloan.org/program/research/energy-and-environment/electrification-letters-of-inquiry |
| Alex's Lemonade Stand Foundation | Health | Reach Grants | 3/28/2022 | | \$250,000 | 1-2 grant period | The purpose of the Reach Grant is to advance ALSF's mission to find cures and better treatments for childhood cancers by providing support to move hypothesis-driven research into the clinic. Significant barriers exist that impede the translation of innovative and important ideas to the clinic. The Reach Grant seeks to remove one of these barriers by providing support for important preclinical projects that are necessary to move a study from the pre-clinical arena into a clinical trial. Thus, the goal of this award is to support translational studies that will result in a phase 1 and/or 2 clinical trial, two to three years from the project start date. Examples include but aren't limited to, completing IND-enabling studies, providing requisite preclinical data for clinical trial development, or perhaps through the validation of biomarkers that will enable selection of the correct patients for entry into new clinical trials. | Online Application | https://www.alexlemonade.org/researchers-reviewers/applicants |
| Chan Zuckerberg Initiative | Science | Chan Zuckerberg Biohub Network | 4/1/2022 | | \$250,000,000 | Requires joint application from at least three universities and/or other research institutions within the same city or geographic area. | Seeking Letters of Intent to create the next CZ Biohub. This new CZ Biohub will focus on developing new technologies to measure and observe human biology in ways that help deepen our understanding of human health and disease. The ideal scientific themes will be interdisciplinary in nature, have large engineering challenges to conquer, and be wildly ambitious. The focus area of this new CZ Biohub should further diversify CZI's existing research portfolio, which consists of infectious disease and quantitative cell science (San Francisco CZ Biohub); neuroscience and artificial intelligence (Kempner Institute for the Study of Natural and Artificial Intelligence at Harvard University); and the Chan Zuckerberg Institute for Advanced Biomedical Imaging. We expect that the next CZ Biohub will receive a 10-year funding commitment in the range of \$200-250 million, with an anticipated launch in 2023. LOIs must be submitted jointly from at least three universities and/or other research institutions within the same city or geographic area. Must coordinate with Foundation relations. | | |
| Brady Education Foundation | Education | Research & Program Evaluations in Early Education | 4/1/2022 | | \$100,000 | Maximum 3-year grant period | The Foundation is currently accepting proposals focused on evaluating programs that have the potential of helping to close the opportunity and resulting achievement gaps associated with race and family income. Must coordinate with Foundation Relations. | Emailed Application | http://bradyeducationfoundation.org/application-guidelines/ |

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|--|---------|---|-----------|---------------|---------------|---|---|--------------------|---|
| American Cancer Society | Health | Pilot and Exploratory Projects in Palliative Care of Cancer Patients and Their Families | 4/1/2022 | | \$120,000 | 1-2 year grant period | Pilot data are typically needed before funding agencies (e.g., NIH, VA or the American Cancer Society) will consider funding a research project. In an effort to support clinician investigators conducting patient-oriented research in palliative care, the American Cancer Society, in parallel with the National Palliative Care Research Center (NPCRC), is soliciting applications for pilot/exploratory research grants in palliative care of cancer patients and their families. These grants will generate the pilot data necessary to maximize an investigator's chances of competing successfully for larger grants. | Online Application | https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/rfa-palliative-care-cancer-patients.html |
| American Cancer Society | Health | Clinician Scientist Development Grant (CSDG) | 4/1/2022 | | \$135,000 | 3-5 year grant period | The Clinician Scientist Development Grant (CSDG) fosters the development of clinicians to clinician scientists. Clinician scientists are investigators licensed to provide patient care and trained to conduct research. They pursue research questions across the cancer research continuum of relevance to improving health. The CSDG provides support for protected time to allow junior faculty who see patients to be mentored and participate in research training to aid their development as independent clinician scientists. | Online Application | https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/clinician-scientist-development-grant.html |
| United Way for Southeastern Michigan | Various | Detroit Financial Well-Being Innovation Challenge | 4/4/2022 | \$20,000 | \$1,000,000 | First round only; Must submit an Express of Interest form prior to application submission; Video pitches are due 4/4/22, and full print applications for the first stage are due 5/9/22 | The Detroit Financial Well-Being Innovation Challenge aims to improve the financial lives of Detroit residents. The United Way of Southeastern Michigan is looking to advance big ideas that will drive big changes that help Detroiters thrive financially. Over the next five years, this initiative will provide seed funding and technical assistance to push this mission forward. The challenge will support applicant organizations and collaborative teams through the process of developing ideas from concept all the way to fully-operational programs or initiatives. Must coordinate with Foundation Relations. | Online Application | https://unitedwaysem.org/wp-content/uploads/2022-FWB-Innovation-Challenge-2-Page-Overview.pdf |
| American Federation for Aging Research | Health | Clin-STAR Transdisciplinary Aging Research Pilot/Planning Grants | 4/12/2022 | | \$50,000 | Letter of Intent only with full proposals upon invitation only; | The Clinician-Scientists Transdisciplinary Aging Research (Clin-STAR) Coordinating Center is seeking to fund pilot or planning grants that aim to stimulate new collaborations focused on the development of clinical aging research projects. A major goal of this effort is to bridge junior and senior researchers from different disciplines and institutions in order to stimulate new areas of age-related clinically relevant research that is focused on generating or analyzing data from human subjects. This might include epidemiological, clinical, health services, or biological measurement research. Funding may be used by investigators who are collecting preliminary data in emerging areas and/or understudied areas of clinical aging research, for collaborative projects to support transdisciplinary collaborations, or for smaller planning grants. The funding also provides opportunities to build mentee/mentor relationships at different institutions and content expertise in different disciplines for the junior investigator. | Online Application | https://clin-star.org/pilot-grants |
| Searle Freedom Trust | Various | Research on Public Policy | 4/15/2022 | \$100,000 | \$300,000 | | Recognizing that good policymaking relies on the availability of high-quality research, the foundation invests primarily in scholarship that results in the publication of books, journal articles, and policy papers. Funding is typically provided in the form of research grants, fellowships, and other types of targeted project support. With the foundation's assistance scholars investigate a wide range of issues, including tax and budget policy, cost-benefit analysis of regulatory practices and proposals, the workings of the legal system, environmental policy, social welfare reform, and K-12 and higher education policy. | Online Application | https://searlefreedomtrust.org/application-guidelines/ |

Upcoming Opportunities - February 2022

Please contact Gayle Foley (fz8071@wayne.edu or 7-8847) or Vanessa Miller (Vanessa.Miller@wayne.edu or 7-1162) to discuss applications.

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|--|---------|---|-----------|---------------|---------------|--|--|--------------------|---|
| Alternatives Research & Development Foundation | Science | Alternatives Research Grant Program (Non-Animal Methods in Biomedical Research) | 4/15/2022 | | \$40,000 | | ARDF's Annual Open grant program was established to fund research projects that develop alternative methods to advance science and replace or reduce animal use. | Online Application | https://www.ardf-online.org/ardf-grants.html |
| United Engineering Foundation | Science | Yearly Grants | 5/2/2022 | | \$100,000 | Concept paper only with full proposal due 8/1/2022 | The United Engineering Foundation advances the engineering arts and sciences for the welfare of humanity. It supports engineering and education by, among other means, making grants. Grants should be consistent with advancing engineering. | Email Application | https://www.uefoundation.org/uef-grants-program/ |
| DMC Foundation | Health | Health Education and Community Benefit | 5/15/2022 | \$10,000 | \$100,000 | | The DMC Foundation is interested in supporting projects that promote health, wellness or community vitality by supporting health education, community benefit; facilitate the provision of medical, health care and disease-prevention services; improve health in the Metro Detroit community; and leverage public and private resources. Must coordinate with Foundation Relations. | Online Application | https://cfsem.org/wp-content/uploads/2017/11/DMC-Grant-Guidelines-and-Checklist-April-2021.pdf |
| DMC Foundation | Health | Medical Research | 5/15/2022 | \$10,000 | \$100,000 | | Support for medical research will focus on activities that augment currently funded research that has been vetted through a competitive public, national or appropriate scientific juried process. Must coordinate with Foundation Relations. | Online Application | https://cfsem.org/wp-content/uploads/2021/02/DMC-Medical-Research-Grant-Guidelines-and-Checklist-April-2021.pdf |
| Chan Zuckerberg Initiative | Science | Science Diversity Leadership Award | 5/19/2022 | | \$1,115,000 | 5-year grant period | Science Diversity Leadership awards from the Chan Zuckerberg Initiative (CZI) will recognize the leadership and scientific accomplishments of outstanding early- to mid-career researchers at U.S. universities, medical schools, or nonprofit research institutes who — through their outreach, mentoring, teaching, and leadership — have a record of promoting diversity, equity, and inclusion in their scientific fields. They will have made significant research contributions to the biomedical sciences, show promise for continuing scientific achievement, and demonstrate leadership in efforts to diversify the sciences. Must coordinate with Foundation Relations. | Online Application | https://czi-scienceleadership.nas.edu/?utm_campaign=Science&utm_medium=email&hsmi=202011041&hsenc=p2ANgtz-iXZutMX6plWpuPBuCTG2fpYQPvWV3HmjtIcf1Ns0e!O6KE8MVDokrenIj5GdeK5Q1vjQ3CukqVfn9_kWXLh-M3ygQ&utm_content=202011041&utm_source=hs |

Upcoming Opportunities - February 2022

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|-----------------------------------|-----------|---|----------|---------------|---------------|---|---|--------------------|---|
| The Jewish Fund | Health | Health of the Metropolitan Detroit Community | 6/2/2022 | \$10,000 | \$100,000 | LOI only; full proposal upon invitation only; 1-year grant period with the potential for renewal | Supports programs in metropolitan Detroit that improve health outcomes for vulnerable populations as a result of increased access to quality health care. Also supports programs that improve health outcomes in vulnerable children as a result of participation in early childhood health intervention programs. Such programs may include pre-natal services and/or those targeting children up to kindergarten age. Must coordinate with Foundation Relations. | Online Application | https://thejewishfund.org/apply/ |
| Simons Foundation | Science | Targeted Grants in Mathematics and Physical Sciences | Rolling | \$25,000 | \$300,000 | LOI only, with full applications invited upon review; up to 5-year grant period | The foundation invites applications for its Targeted Grants in Mathematics and Physical Sciences program, which is intended to support high-risk theoretical mathematics, physics, and computer science projects of exceptional promise and scientific importance on a case-by-case basis. It provides flexible funding for up to five years. The foundation strongly encourages applications from underrepresented groups. Must coordinate with Foundation Relations. | Online Application | https://www.simonsfoundation.org/grant/targeted-grants-in-maths/?tab=awardees |
| Transformational Partnership Fund | Higher Ed | Higher Ed Partnership and Collaboration Grants | Rolling | | \$100,000 | | Catalytic grants (up to \$100,000 per exploration) will be available to help schools engage technical assistance providers knowledgeable in law, finance, governance, fundraising, human resources, and/or other related fields. TPF also will provide free access to relevant resources collected from its advisors, its network, and other third-parties. | Online Application | https://www.higheredpartnerships.org/challenge-opportunity/ |
| Internet Society Foundation | Various | Future and Sustainability of the Internet | Rolling | | \$200,000 | 2-year grant period | Supports research on the internet's environmental footprint or past or present ecosystems which yield insights into the future of the Internet and its dependent market(s). | Online Application | https://www.isocfoundation.org/grant-program/research-grant-program/ |
| Robert Wood Johnson Foundation | Health | Exploring the Future to Build a Culture of Health | Rolling | | \$300,000 | The average Pioneer grant in 2019 was \$315,031. Proposals will be accepted throughout the year on a rolling admission. | Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. Must coordinate with Foundation Relations. | Online Application | https://www.rwjf.org/en/library/funding-opportunities/2020/pioneering-ideas-2020-exploring-the-future-to-build-a-culture-of-health.html?rid=003250000271F4VQAW&et_cid=2046258 |
| Robert Wood Johnson Foundation | Health | Evidence for Action: Investigator-Initiated Research to Build a Culture of Health | Rolling | \$185,000 | \$440,000 | Grant period is up to 36 months. | Supports rigorous, high-impact, creative research projects to build and disseminate information for evidence-based approaches to building a Culture of Health. The program will also support efforts to assess outcomes and set priorities for action by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and well-being, and on novel approaches to measuring health determinants and outcomes. Must coordinate with Foundation Relations. | Online Application | https://anr.rwjf.org/viewCfp.do?cfpid=1224&cfpOverviewId= |
| Thrasher Research Foundation | Health | E.W. Al Thrasher Award | Rolling | \$100,000 | \$500,000 | Awards grants two times per year, with no fixed number of awards given in each funding cycle or in each year. | Funds to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years. Open to applications that address a variety of significant pediatric problems. Both incidence and severity are considered when determining the significance of the proposed topic. | Email LOI | https://www.thrasherresearch.org/SitePages/al-thrasher-award.aspx |

Upcoming Opportunities - February 2022

Corporate and Foundation Relations staff will help prepare all applications. Those opportunities noted in red must be coordinated with Corporate or Foundation Relations.

| Funder | Topic | Program Name | Deadline | Award Minimum | Award Maximum | Notes | Purpose | Submission Method | Website |
|--|-----------|----------------------------------|------------------------|---------------|---------------|--|---|----------------------------|---|
| Michael J. Fox Foundation for Parkinson's Research | Health | Rapid Response Innovation Awards | Rolling | | \$75,000 | | Supports innovative, high-risk, high-reward projects tackling critical scientific and therapeutic roadblocks that, if successful, open new avenues for PD therapy development. The program is well suited to projects with little-to-no existing preliminary data, but where hypothetical rationale is highly compelling and study results can make the case for continuing (or discontinuing) a line of research. Applicants may submit on any PD-relevant area of basic, preclinical and/or clinical research with a clear, achievable one-year goal. | Online Application | https://www.michaeljfox.org/research/grant-detail.php?id=3 |
| Wish You Well Foundation | Education | Grant Program | Rolling | \$200 | \$10,000 | | Supporting family literacy in the United States by fostering and promoting the development and expansion of new and existing literacy and educational programs. | Online or Mail Application | http://www.wishyouwellfoundation.org/apply-for-funding/ |
| The Nathan Cummings Foundation | Science | Climate Program | Rolling | \$3,000 | \$950,000 | | Supports promising work that addresses climate change by increasing access to modern energy for the world's poor; stabilizing greenhouse gas concentrations in the atmosphere at a low level; and improving resilience for those most vulnerable to the negative consequences of climate variability and change. | Online Application | http://ncf.org/what-we-fund/our-focus/climate |
| The Commonwealth Fund | Health | Grant Program | Rolling | | \$200,000 | Strictly LOI submission. Proposals are invitation only. Award amount based on previous grants. | To promote a high performing healthcare system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, minority Americans, young children, and elderly adults. Must coordinate with Foundation Relations. | Online Application | http://www.commonwealthfund.org/grants-and-fellowships/applicant-resources |
| Andrew W. Mellon Foundation | Arts | Monuments Project | Rolling for five years | | | | The Monuments Project is a five-year, \$250 million commitment to reimagine and rebuild commemorative spaces and transform the way history is told in the United States. The project is one of Mellon's signature initiatives under its President, Elizabeth Alexander. Grants made under the Monuments Project will fall under the following areas of activity: fund new monuments, memorials, or historic storytelling spaces; contextualize existing monuments or memorials through installations, research, and education; and relocate existing monuments or memorials. This is a five-year program, but Foundation Relations encourages early submissions. Additionally, this is a centrally-coordinated foundation and interested parties need to work with Foundation Relations on submissions. Must coordinate with Foundation Relations. | Online application | https://mellon.org/topics/monuments/ |
